Skills

- python - advanced
- git - intermediate
- C - intermediate
- Electronics - good knowledge
- Teamwork
- Creativity

Language

English
German

About Me

I am a motivated and positive person with strong communication skills. I am hardworking and goal-oriented, and I work effectively both independently and as part of a team. I quickly adapt to dynamic environments and constantly strive to expand my knowledge and skills. I am particularly interested in working with electrical circuits and backend development.

Projects

shopiclothi.com

Part of 5 person team developing a web application for selling new and second hand clothes. As a Backend Developer I deal with processing of queries, database optimization and user integration functionality. I am using Django and PostgreSQL.

AlgoLogic

Personal site for represening how algorithmus works. You can make an experiment with your own values and visualize it for better explanation.

Education

Technical University of Sofia	2024 - 2028

First course "Computer and software development".

High school of science and mathematics - Veliko Turnovo	2019 - 2024

Graduated mathematic and german speciality.

Hobby

- enjoy solving logical and algorithmic challenges
- create small mathematical programming projects
- strong interest in electrical components and circuits
- like to calculate values and experiment with electronics
